Our Goals
National Council of State Boards of Nursing (NCSBN) has created Transition to Practice® with the goal of promoting public safety by supporting new nurses during the critical entry period into professional practice.

Our Journey
Evolved from the Transition to Practice study, Transition to Practice is designed to empower new nurses and improve patient outcomes. Our approach ensures learner engagement by utilizing a proven strategy of critical thinking and interaction to achieve and sustain results.

Introduction to Program
Being a Safe Practitioner
Communication
The Nursing Team
Respect for Others
Understanding & Using Information
Protecting Patients
Providing Patient- & Family-centered Care
