

NCSBN's Review course for the NCLEX-RN® is accessible 24/7 and mobile device-friendly, so you can study wherever and whenever you want, giving you control over your study schedule. The approximate time required to complete the entire course, including all Pre-Assessment Activities, Lessons, Practice Tests and Practice Question Banks, is around **100** hours. However, you determine how much or how little time you want to spend on the review.

The course includes approximately **1,800 NCLEX-style questions**. This total number is spread out throughout the course and is comprised of Knowledge Check questions within every lesson and questions in the Pre-Assessment Activities, Practice Tests and Practice Question Banks that are located at the end of the course. As you go through the course, you can take advantage of free access to Merriam-Webster's Medical Dictionary, A.D.A.M.® SmartEngage Illustrated Encyclopedia Multimedia Edition, Epocrates® Rx Online Reference (a pharmacology database) and NCSBN Learning Extension's own **Medication Flashcards**. When you need a break, make sure to check into one of the Relaxation Stations to recharge and reenergize.

The following study plan is for those individuals who prefer a more prescriptive plan for how to best use their 3-week subscription. The time is divided equally among the three weeks, anticipating that you will be able to study about seven hours a day, for five days each week. **Please note:** the practice banks are not lesson- or subject-specific and contain questions from all NCLEX categories.
