

Essential Access Health's Learning Exchange Presents

Pregnancy Options Counseling Training

100% Virtual - COMING in 2022

Learn how to provide effective client-centered options counseling informed by medically accurate information about pregnancy, parenting, abortion and adoption. This training is essential for anyone who counsels or educates others about pregnancy outcome options.

After this training participants are able to:

- Identify their personal opinions and beliefs concerning pregnancy options in order to provide unbiased support for each client
- Describe to clients the key elements of prenatal care, parenting, adoption, and abortion in a non-judgmental manner
- Identify federal and state guidelines and recommendations for conducting a pregnancy options counseling session
- Describe how to create a quality pregnancy options referral list
- Apply client-centered counseling techniques when conducting an unbiased, nonjudgmental and non-coercive pregnancy options counseling session

Pregnancy Options Counseling Certification is received upon passage of an online final exam and uploaded pregnancy options counseling session video and is valid for five years. (OPTIONAL)

Two Training Options:

Pregnancy Options Counseling Interactive

Complete online video modules + quizzes
Attend 4 weekly Zooms for counseling skills practice

Pregnancy Options Counseling On-Demand

Complete online video modules + quizzes at your own pace (no skills practice)
